# Ashutosh

Kanpur, Uttar Pradesh 208024
+91-7390986296 ashutoshknp12@gmail.com linkedin.com/in/ashutosh1975271 github.com/Ashutosh-AIBOT

## Education

**Dr. A.P.J. Abdul Kalam Technical University, Lucknow** **Aug 2022 – April 2026**
*Bachelor of Technology in Electronics Engineering , CGPA - 7.4/10* *Kanpur, Uttar Pradesh*

**Saraswati Vidya Mandir Inter College Hamirpur UP** **2018– 2020**
*High School (UP Board) - 89 Percent* *Hamirpur , Uttar Pradesh*

**Saraswati Vidya Mandir Inter College Hamirpur UP** **2020 – 2022**
*Intermediate (UP Board ) - 83 percent* *Hamirpur, Uttar Pradesh*

## Relevant Coursework

- Data Structures
- Algorithms Analysis
- Machine Learning
- Deep Learning
- Generative AI
- OpenCV, NLP
- API Development
- Cloud Computing

## Experience

**AI/ML Developer Intern** **Dec 2023 – Feb 2024**
*Enloomed India Pvt. Ltd. — Voice and Text To Image generation* *Kanpur , Uttar Pradesh*

- Implemented API integration for voice-to-text transcription and image generation using OpenAI Whisper and DALL·E.
- Implemented real-time voice recording and transcription using sounddevice, wavio, and OpenAI Audio.transcribe to allow users to generate images directly from both text prompts and voice input enhancing the interactive creative experience.
- Created a responsive Streamlit app with voice and text inputs, styled with custom HTML/CSS.

**AI Developer Intern** **feb 2025 – Mar 2025**
*Tech Saksham Internship (CSR by Microsoft, SAP, AICTE) — AI-powered resume screening app* *( Online work)*

- Built a screening app using NLP techniques to automate candidate evaluation, reducing manual review time .
- Utilized front-end and back-end technologies to create an intuitive, user-friendly interface.
- Gained hands-on experience in building deployable web applications aligned with real-world use cases.
- Successfully completed a project under a CSR innovation platform, demonstrating strong problem-solving skills and the ability to work independently under pressure in a structured environment..

## Projects

**Bitcoin Long/Short Movement Prediction** | *During Google Advanced Data Analytics Certification* **March 2025**

- Built a Random Forest model with 85 percent accuracy to predict Bitcoin price direction ($\geq 0.8$ change).
- Created meaningful features from OHLC data and handled class imbalance to improve prediction accuracy.
- Tuned model hyperparameters with RandomizedSearchCV to get the best performance.
- Analyzed Bitcoin dataset, performed data manipulation, and developed a Flask app for prediction and visualization.

**Simple Image Caption Generator** | *LSTM, TensorFlow, CNN (VGG16)* **November 2024**

- Built a deep learning model using CNN (VGG16) and LSTM to generate captions from images.
- Preprocessed text data with cleaning, tokenization, and sequence padding for training.
- Created a data generator for efficient batch training on large datasets using TensorFlow/Keras.
- Evaluated the model with BLEU scores and created a Streamlit app to visualize caption predictions.

**NeuroBot – Intelligent Conversational Assistant** | *Python, LangGraph, OpenRouter API* **August 2025**

- Built an intelligent assistant using Python, OpenRouter API, and LangGraph with SQLite-backend .
- Dynamic pipeline for real-time responses using tool calling, and conditional workflows.
- Created a streamlit app to provide real-time access to the intelligent assistant enhancing user experience. .

## Technical Skills

**Languages**: Python DSA , Java DSA , SQL , MONGO DB.
**Libraries**: NumPy, Pandas, Matplotlib, Seaborn, Scikit-Learn, Keras, TensorFlow, Pytorch(less use).
**Frameworks/Tools**: Fast API, Rest API , Google Colab, Jupyter Notebook, PyCharm, Spyder , Streamlit, React .

## Extracurricular

- Learning AI, ML, and Data Science daily as a hobby, constantly exploring new techniques and growing my skills.
- Participated in tech contests and challenges on GeeksforGeeks and Kaggle to enhance problem-solving skills..
- Constantly fueled by curiosity, I dive into new challenges daily, turning every learning moment into a step forward.
